Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Minor label changes, including a change specifically requested by California DPR
Product Name: Fresh Cab
EPA Registration Number: 82016-1
Application Date: 6/22/2015
OPP Decision Number: 506255

Dear Ms. Block:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Sandra Owusu-Ansah of my team by phone at (703) 347-0350 or via email at owusu-ansah.sandra@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "For Andrew C. Bryceland". The signature is stylized and written over a faint, illegible background.

1 pouch [{ insert # } pouches]

KEEP OUT OF REACH OF CHILDREN

General Information: [Fresh Cab] repels by odor that is offensive to rodents, but not to humans. This product can be used effectively to repel rodents from infested areas for up to 30 days.

Directions for Use: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Indoors: Use in non-living areas (attics, basements, cellars, storage areas, garages, sheds, pantries, and barns). Place one scent pouch per 8 square feet in areas to be protected (i.e. use 4 pouches in a single car garage or ~~one~~ 1 pouch in a pantry). Replace

when scent has diminished. Length of effectiveness depends on air exchange rates and temperature.

Enclosed Spaces: Use in autos, RVs, airplanes, boats, tractors, trucks, etc and other enclosed spaces. Place 4 four scent pouches per storage unit per season to freshen the average size camper, boat, truck or auto. Replace scent pouches when scent has diminished. The product lasts up to 30 days in cold storage areas. Length of effectiveness depends on air exchange rates and temperature condition of storage areas.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in original container in cool, dry place, that is inaccessible to children and pets. Keep container tightly closed to prevent evaporation.

DISPOSAL: Non-refillable container. Do not reuse or refill this container. Promptly dispose of used pouches in the trash so as not to attract ravenous mice. Contents and packaging are biodegradable.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

earthkind@

This innovative product was invented out of necessity. I was offended by the toxic smell of moth balls and the unpleasant odors we found in our farm implements in the spring, so I came up with a plant-based alternative that would both freshen and protect our storage areas for up to three months. This product is safe when used as directed and offers a kinder way to repel rodents from vacant storage areas.

I wish to personally thank you for purchasing this product. In doing so, you support American farmers, less advantaged communities and our precious environment. I welcome your comments and suggestions.
